

About DriveTime

DriveTime is a company that specializes in financing and selling high quality used cars to those with poor credit history. We understand that people's credit is not perfect, and that the current economic conditions are not helping the situation. We feel that people should be given the chance to better their future, instead of worrying about the past, which is exactly why DriveTime handles 99% of all of our own financing!

If you are looking for a great used car from one of our Florida DriveTime locations, then you will have no problem finding one! We have several Florida stores that are located for your convenience and that have a great selection of used cars. At DriveTime, we are proud to have a welcoming atmosphere and a staff that treats our customers like family. We are interested in getting you into a used car that you can count on and that you are not embarrassed to drive.

At our Florida DriveTime locations, we know that people are only human and that we all make mistakes. We take any financial situations into consideration and do our best to finance you so that we can get you into a used car that will improve your credit score, not make it worse. Other dealerships and lenders may make you feel embarrassed about your credit history, but at Florida DriveTime we do not judge anyone. We make the process to get approved very simple:

- Log on to our website at www.DriveTime.com
- Complete and submit our short online application
- Wait just TWO minutes to find out whether you have been approved

Everything you need to know about Florida DriveTime!

If you have been approved, all you will need to do is visit one of our Florida DriveTime locations. There, one of our Go-to-Guys will help you find a vehicle that suits your lifestyle and your financial situation. We are known for having almost guaranteed approval, so why not take a couple minutes to complete our short online application and find out whether you are approved?

We know that used cars tend to make people feel uneasy because they do not know the history of the vehicle they're purchasing. In order to reassure our customers that the vehicles DriveTime sells are of the highest quality, we provide a DriveCare® Limited Warranty and a rigorous 53-point inspection. Our warranty is one of the best in the industry and comes standard with every purchase. The 53-point inspection is performed on every car and truck before they even arrive at any of our dealerships.

Florida DriveTime locations have everything that you are looking for and more. So stop by the dealership that is most convenient to you and see what we're talking about!
